2. Review of Operations:

Your Company achieved a consolidated turnover of ₹ 47,427.87 lakhs as compared to previous year consolidated turnover of ₹ 39,266.43 lakhs.

Consolidated profit before tax was higher at ₹ 29,228.53 lakhs as compared to ₹ 24,789.45 lakhs in the year 2018-19.

Consolidated earnings per share amounted to ₹ 33.19 (previous year ₹ 25.61). Company's reserves were ₹ 1,34,338.59 lakhs (previous year ₹ 1,15,638.34 lakhs).

3. Dividend:

Board of Directors has decided that interim dividend of 150% amounting to ₹ 3 per equity share of ₹ 2 each for the financial year ended 31 March 2020 be confirmed as final dividend at the ensuing Annual General Meeting.

Dividend Distribution Policy

As per Regulation 43A of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, (Listing Regulations) the Dividend Distribution Policy is available on the Company's website at www.nesco.in.

4. Management Discussion and Analysis:

Company has four business verticals:

i) Nesco IT Park:

During the year, revenue from IT Park was ₹ 21,416.82 lakhs (previous year ₹ 13,696.98 lakhs).

Construction of Tower 04 is now completed. The building is Platinum rated for Core & Shell under the LEED India rating system by the Indian Green Building Council. Tower 03 is fully occupied. Hall 3 provides Incubation Centre facility; and a Child Care Centre for children of employees working in Nesco Center.

Opportunities and Threats

Goregoan East is a preferred location and demand for IT space is expected to rise in the years to come from MNCs, Banks, etc. At the same time several new buildings and more Business Parks are coming up to meet the growing demand.

Capital Expenditure and Expansion Plan

Having completed two IT Towers, the Company is going forward to construct third Tower. Designs are being made by Singapore Based Architects – Aedas Pte Limited and size will be about 4.6 million sq. ft. which includes office space, hotel, car parking, other amenities and support areas. Civil work is expected to start in FY 2021-22.

Company also undertook major refurbishment towards lift lobby areas, other facilities & common areas in existing Tower 03.

ii) Bombay Exhibition Centre:

- a. Guest Exhibitions and Events:** During the year 128 guest exhibitions and events were held in our Centre, out of which 18 were new organizers. Some of our new shows include exhibitions held by UBM India, Divergent Media India, Powerloom Development & EPC, Taipie WTC Liaison, Messe Dusseldorf India.

Income from the Exhibition Centre for the year was ₹ 15,860.11 lakhs compared to ₹ 15,730.24 lakhs in the previous year.

Bombay Exhibition Centre continues to bring more visitors to Mumbai than any other venue and is spread over six air-conditioned halls.

Since 23 March 2020, in view of the lockdown to control the COVID-19 pandemic, several exhibitions have been either postponed or cancelled. This has not significantly impacted performance of financial year 2019-20. However, impact on our business would depend on future developments and the Company will closely monitor the situation.

Opportunities and Threats

Mumbai being the commercial capital of India, is a preferred venue. Number of exhibitions organized by foreign and local organizers are increasing. Bombay Exhibition Centre is confident of growth in years to come.

Capital Expenditure and Expansion Plan

Bombay Exhibition Centre is considering plans for building new Halls.

b. Nesco Events: During the year two events were organized by the Company.

Rangilo Re:

Rangilo Re, started in 2017 has become one of the top 5 Navratri destinations of Mumbai. Rangilo Re showcases varied dances from the various parts of Gujarat and the best of Gujarati cuisine in one stupendous setting. This event is organized in an indoor air-conditioned hall to celebrate Navratri festival on a scale and size unparalleled in the city of Mumbai.

Paddy Fields:

Paddy Fields is a unique initiative, the only folk and fusion revival festival in India. It is an exclusive event that recognizes and celebrates the beauty of folk music and proposes to recreate that magic through talented artists from across rural and urban India. Started in 2016, the festival distinguishes itself by making popular artists come out of their comfort zone and make music with the strands of folk tradition for lovers of this genre.

Opportunities and Threats

There is an opportunity of potential strategic tie-ups with third party as partners, wherein the benefits could range from revenues to brand building and increased footfalls to the venue.

Competition from new venues coming up in the city is a possibility.

c. Nesco Exhibitions: A new division – Nesco Exhibitions - organizes its own exhibitions.

During the financial year 2019-20, Company had successfully organized five exhibitions including India Auto Show; Machine Tools, Manufacturing and Technology Expo; Hobby & Lifestyle; Edutech India and Arogya Fest. Nesco's own exhibitions and events will increase the Halls occupancy.

Opportunities and Threats

In Nesco Exhibitions, we work on new topics. Getting exhibitors, visitors and the Government on one single platform is the biggest opportunity.

Exhibitions is a competitive industry, with foreign and Indian organisers, who are active in India for many years.

iii) Nesco Foods:

Income for the year from the foods division was ₹ 3,568.82 lakhs as compared to ₹ 3,413.19 lakhs during the previous year. Nesco Foods caters to the needs of visitors to exhibitions and conventions and employees working in Nesco IT Park. The kitchen facility is fully operational.

Opportunities and Threats

This Division has multiple channels of revenues through various segments: Corporate, Social and MICE. As number of exhibitions grow, Nesco Foods revenue also grow.

Capital Expenditure and Expansion Plan

Nesco Foods continued its expansion by adding a new cafeteria in Hall 06 and Dining Bay in Hall 03 during the year 2019-20. The division further diversified by adding a premium lounge/bar "Dress Circle" towards the end of the year in Nesco Centre. The total expenditure was about ₹ 350 lakhs.

Plans for 2020-21 include adding new restaurants such as Hard Rock Café, Shiro, California Pizza Kitchen amongst others and new food courts within the premises of Tower 04. The Company is also exploring options for adding a new "Pan-Asian" restaurant in Tower 03.

iv) Indabrator:

During the year under review, income from Indabrator was ₹ 2,327.43 lakhs as compared to ₹ 3,253.65 lakhs during the previous year.

Opportunities and Threats

Indabrator is pioneer in India in this product range, with capability of handling large projects, integrated manufacturing set-up under one roof, with large number of installations. Spares and abrasives are recurring business.

Capital Expenditure and Expansion Plan

Indabrator has completed capacity expansion of its Abrasive plant at Karamsad in November 2019. Capacity of the new Abrasive plant is 2400 MT per annum. Further expansion is under consideration.

v) Investment Income:

Income from investments was ₹ 4,254.69 lakhs (previous year ₹ 3,172.36 lakhs).

5. Internal Audit Systems:

- a. Your Company has well laid out policies on financial reporting, asset management, adherence to Management policies and also on promoting compliance of ethical and well-defined standards. The Company follows an exhaustive budgetary control and standard costing system. Moreover, the management team regularly meets to monitor goals and results and scrutinizes reasons for deviations in order to take necessary corrective steps. The Audit Committee which meets at regular intervals also reviews the internal control systems with the Management and the internal auditors. The internal audit is conducted at various locations of the Company and covers all key areas. All audit observations and follow up actions are discussed with the Management as also the Statutory Auditors and the Audit Committee reviews them regularly.
- b. During the year, the Company has completed implementation process of integrated SAP S4 HANA software System covering all the segments of the Company. The modules implemented includes Manufacturing Module (MM), Finance & Costing (FICO), Business Solution Module and Office Solution module. This will help in further strengthening of Internal Financial Control System.

6. Finance:

Your Company had no debt as on 31 March 2020. Company's liquid resources (fixed maturity plans, mutual funds, cash and bank balances) increased by 27.33% to ₹ 68,566.60 lakhs from ₹ 53,851.11 lakhs.

We, Manubhai & Shah LLP, Chartered Accountants, the Statutory Auditors of Nesco Limited ('the Company'), have examined the compliance of conditions of Corporate Governance by the Company for the year ended 31 March 2020 as stipulated in Regulations 17 to 27 and clauses (b) to (i) of Regulation 46(2) and Para C and D of Schedule V of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('the Listing Regulations').

Management's Responsibility

The compliance of conditions of Corporate Governance is the responsibility of the Management.

This responsibility includes the design, implementation and maintenance of internal control and procedures to ensure the compliance with the conditions of the Corporate Governance stipulated in Listing Regulations.

Auditor's Responsibility

Our responsibility is limited to examining the procedures and implementation thereof, adopted by the Company for ensuring compliance with the conditions of the Corporate Governance. It is neither an audit nor an expression of opinion on the financial statements of the Company.

We have examined the books of accounts and other relevant records and documents maintained by the Company for the purpose of providing reasonable assurance on the compliance with Corporate Governance requirements by the Company.

We have carried out an examination of the relevant records of the Company in accordance with the Guidance Note on Certification of Corporate Governance issued by the Institute of Chartered Accountants of India (the ICAI), the standards on Auditing specified under Section 143(10) of the Companies Act, 2013, in so far as applicable for the purpose of this certificate and as per the Guidance Note on Reports or Certificates for Special Purposes issued by the ICAI which requires that we comply with the ethical requirements of the Code of Ethics issued by the ICAI.

We have complied with the relevant applicable requirements of the Standard on Quality Control (SQC) 1, Quality Control for Firms that Perform Audits and Reviews of Historical Financial Information, and Other Assurance and Related Services Engagements.

Opinion

Based on our examination of the relevant records and according to the information and explanations provided to us and the representations provided by the Management, we certify that the Company has complied with the conditions of Corporate Governance as stipulated in Regulations 17 to 27 and Clauses (b) to (i) of Regulation 46(2) and para C and D of Schedule V of the Listing Regulations during the year ended 31 March 2020.

We state that such compliance is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the Management has conducted the affairs of the Company.

SECTION E: PRINCIPLE-WISE PERFORMANCE

Principle 1 Ethics, Transparency and Accountability

1. Does the policy relating to ethics, bribery and corruption cover only the Company? Does it extend to the Group/Joint Ventures/Suppliers/Contractors/NGOs/Others?

We have a Code of Conduct which governs the Directors and senior management of the Company in carrying out their responsibilities towards the Company and stakeholders. The Code has been formulated so as to promote the highest degree of personal and professional integrity, honesty and values. It is applicable to:

- Members of the Board of Directors.
- Senior management, Key Management Personnel and Functional Heads ("Manager").

The principles of ethics, bribery and corruption are covered in the Code of Conduct. All Directors and senior management members are required to confirm compliance with the Code of Conduct Annually.

We have guidelines for bribery, corruption and ethical business conduct which apply to the suppliers, vendors, contractors and implementing agencies.

2. Stakeholder complaints received in the past financial year and percentage satisfactorily resolved by the management?

We monitor stakeholder complaints through various formal and informal mechanisms. The complaints received and resolved are listed below:

Stakeholder Group	Complaints Received (Nos)	Complaints Resolved (Nos)	Complaints pending (as on 31 March 2020)
Investors	18	18	NIL
Suppliers	NIL	NIL	NIL
Local Communities	NIL	NIL	NIL
Customers	124	108	16

The complaints remaining pending as on 31 March 2020 are under review.

Principle 2 Provide goods and services that are safe and contribute to sustainability throughout their life cycle

1. Products or services whose design has incorporated social or environmental concerns, risks and/or opportunities

- Nesco IT Building 3 in Nesco IT Park (Tower 03) is a Platinum LEED Certified Green Building. Nesco IT Building 4 (Tower 04), whose construction was completed during the year, is also designed to be a Platinum LEED Certified Green Building. The building has green activities that achieved outcomes of energy efficient design, reduction of water use, selection and development of sustainable site, responsible materials selection and waste management, and enhanced indoor environmental quality. Nesco IT Building 3 has led to a 20-30% reduction in the electricity and water requirement. Now, Nesco IT Building 4 is also contributing towards reduction of electricity and water requirement.
- We have rain water harvesting at Nesco IT Building 3 and at Nesco IT Building 4. The rain water collected is going to recharge the ground water and help in maintaining the Green Belt
- About 100 Kilo Litres of Water is recycled through MBBR process for reusing it

2. For each such product, provide the following details in respect of resource use (energy, water, raw material etc.) per unit of product (optional):

Reduction during Use - Nesco IT Park Building 3 and Building 4

There is almost 20% reduction in use of energy and water for the offices because of the Green Building features

Reduction during Sourcing

More than 95% of materials for facilities management and for manufacturing division are sourced locally which helps reduce the emissions from inbound transportation of input materials.

3. Procedures for sustainable sourcing (including transportation)

We have a Procurement Policy for facilities development & management and for manufacturing businesses. The Company aims for sustainability in logistics to be achieved by using less polluting and less fuel consuming transport options or selecting vendors who are close to the manufacturing locations (wherever possible and delivering cost efficient products).

4. Sourcing of goods and services from local producers

Manufacturing

Materials from the top 5 suppliers in terms of volume were sourced from suppliers within a radius of 100 km from the manufacturing plants

Facilities Management and Development

All food products for the exhibitions and IT Park are sourced locally.

5. Mechanism to recycle products and waste

Manufacturing Division

- a) 100% of the metal sheet waste generated from fabrication activity is recycled to manufacture castings and abrasives in the foundry.
- b) 100% rejects from the foundry for making steel shots and castings are remelted into the foundry in a cyclical process

Facilities Management and Development

We have Composting Pit to manage the food waste generated at the Food Court at Nesco IT Park and Nesco Foods. All the food waste generated during the day is recycled. The outcome of the recycled waste is utilized as the fertilizer for maintenance of the green belt.

Principle 3 Promote the wellbeing of all employees

1. Total number of employees by category as on 31 March 2020
2. Total number of permanent women employees
3. Total number of employees hired on temporary/contractual/casual basis.

Category	Permanent			Retainer & others			Contract (Security, Housekeeping & others)

Principle 4 Be responsive towards all stakeholders, especially those who are disadvantaged, vulnerable and marginalized.

1. Internal and External Stakeholders

Internal	Employees
External	Customers, NGOs, Local Communities, Police Department, Law and Order, Municipal Authorities, Suppliers, Bankers.

2. Disadvantaged, vulnerable and marginalized stakeholders and special initiatives to engage with them.

Our CSR Activities like helping contribution towards Cancer aids; providing education to vulnerable class; setting up of English medium schools encouraging women in villages, enhancing their skills in various fields and encouraging women empowerment and construction of drinking water tanks in rural areas were aimed at providing access to health care and equal education opportunities. The beneficiaries are the people of the villages who earlier had limited access to this infrastructure and to create awareness related to various diseases.

Principle 5 Respect and Promote Human Rights

1. Does the policy of the Company on human rights cover only the Company or extend to the Group/Joint Ventures/Suppliers/Contractors/NGOs/Others?

We have a policy on Human Rights which covers the employees of Nesco and our subsidiary Companies, Nesco Hospitality Private Limited and Nesco Foundation for Innovation and Development.

2. **How many stakeholder complaints have been received in the past financial year and what percentage was satisfactorily resolved by the management?**

Stakeholder Complaints on Human Rights	No of Complaints filed (2019-20)	No of Complaints pending as on 31 March 2020

INDEPENDENT AUDITOR'S REPORT ON STANDALONE FINANCIAL STATEMENTS

To
The Members of Nesco Limited
Report on the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of Nesco Limited ('the Company'), which comprise the Balance Sheet as at 31 March 2020, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and notes to the standalone financial statements, including a summary of significant accounting policies and other explanatory information (herein after referred to as 'the standalone financial statements').

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2020, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditors Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined that the matters described below to be the Key Audit Matters to be communicated in the Report:

Sr. No.	Key Audit Matters	How was the matter addressed in our audit
1.	<p>Capital work-in-progress / Investment Property</p> <p>The Company has constructed Tower 04 in Nesco IT Park for providing office space on lease and licence basis to Companies engaged in IT/ITeS and related business activities. In the current year, said tower is ready for use and capitalised under Investment Property at ₹ 57,000.62 lakhs. Timing of capitalization of the project and /or classification of categories of items of Investment Property, deciding useful life for depreciation if done incorrectly, could result in material misstatement of Investment Property with a consequent impact on depreciation charge and results for the year.</p> <p>Refer Note 4(a) & 5 to the Standalone Financial Statements.</p>	<p>Our audit procedures included testing the design, implementation and operating effectiveness of controls in respect of timing of capitalization and recording of additions to items of various categories of Investment property with source documentation, substantive testing of appropriateness of the cut-off date considered for capitalization.</p> <p>We tested the source documentation to determine whether the expenditure is of Capital nature and has been properly approved and segregated into appropriate categories.</p> <p>We reviewed operating expenses to determine appropriateness of accounting.</p> <p>Further, through site visit, we physically verified existence of property and allied assets.</p>

2	<p>Enhancement of Company's ERP System:</p> <p>During the year, the Company has enhanced its ERP system by migrating from Tally ERP to SAP S/4 HANA resulting into a significant change to the financial accounting configuration which is the core for financial reporting.</p> <p>During any period of significant system change, there is an increased risk to the internal financial control environment following system integration, migration of activities and other changes.</p>	<p>We have ensured accurate migration of all the accounting records from Tally to SAP especially closing balances as on the date of migration.</p> <p>Our audit procedures focused on key processes and controls over the system critical to our audit. Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon. Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act, with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Standalone Financials Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in the internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

- 1) As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the Annexure A, a statement on the matters specified in the paragraphs 3 and 4 of the order, to the extent applicable.
- 2) As required by Section 143(3) of the Act, we report that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;

ANNEXURE – B TO THE INDEPENDENT AUDITOR'S REPORT

The Annexure referred to in paragraph 2(f) under “Report on Other Legal and Regulatory Requirements” section of our report of even date

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Nesco Limited (“the Company”) as of 31 March 2020 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Board of Directors of the Company are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (“ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by ICAI (the “Guidance Note”) and the Standards on Auditing prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ACCOUNTING POLICIES

Company Background

Nesco Limited (“Nesco” or “the Company”) was incorporated on 15 April 1946, under the Indian Companies Act VII of 1913. The Company is domiciled in India having registered office at Nesco Center, Western Express Highway, Goregaon (East), Mumbai 400063 and listed on the BSE Limited (BSE) and the National Stock Exchange of India Limited (NSE).

The Company is mainly engaged in the following:

- i) Licencing premises in IT park buildings and providing related services.
- ii) Licencing premises for exhibitions and providing services to the organisers.
- iii) Manufacturing of machines and capital equipment.
- iv) Hospitality and catering services

Note 1 - Basis of Preparation of Financial Statements

a) Compliance with Ind AS:

These financial statements have been prepared in compliance with Indian Accounting Standards (Ind-AS) notified under Section 133 of the Companies Act 2013 (The Act) ,read together with the Companies (Indian Accounting Standards) Rules, 2015 (as amended).

These financial statements have been prepared and presented under the historical cost convention, on the accrual basis of the accounting except for certain financial assets and financial liabilities that are measured at fair values at the end of each reporting period, as stated in the accounting policies set out below. The accounting policies have been applied consistently over all the periods presented in these financial statements.

b) Current / Non-Current Classification:

Any asset or liability is classified as current if it satisfies any of the following conditions:-

- i) The asset / liability is expected to be realised / settled in the Company’s normal operating cycle;
- ii) The asset is intended for sale or consumption;
- iii) The asset/liability is held primarily for the purpose of trading;
- iv) The asset/liability is expected to be realised / settled within twelve months after the reporting period;
- v) The asset is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting cycle;
- vi) In the case of a liability, the Company does not have an unconditional right to defer settlement of a liability for at least twelve months after the reporting cycle;

All other assets and liabilities are classified as non-current.

For the purpose of current/non-current classification of assets and liabilities, the Company has ascertained its normal operating cycle as twelve months. This is based on the nature of services and the time between the acquisition of assets or inventories for processing their realisation in cash and cash equivalents.

c) Functional and Presentation Currency:

The Financial Statements are presented in Indian rupees which is the functional currency for the Company. Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions are recognised in profit or loss. Foreign exchange gains and losses are presented in the statement of profit and loss on a net basis.

d) Rounding of Amounts:

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs as per the requirement of schedule III, unless otherwise stated.

Note 2- Significant Accounting Policies**a) Property, Plant and Equipment:**

Freehold land is carried at historical cost. All other items of property, plant and equipment are carried at the historical cost, less accumulated depreciation and accumulated impairment losses if any. The cost of Property, Plant and Equipment comprises of its purchase price, including import duties and other non-refundable taxes or levies and any directly attributable cost of bringing the asset to its working condition for its intended use.

Subsequent recognition is done in assets carrying amount or as a separate asset only when it is probable that future economic benefits associated with the item will flow to the entity and the cost of the item can be measured reliably. Profit or Loss on disposal of Property, Plant and Equipment is recognised in the Statement of Profit and Loss. All other repairs and maintenance expenses are charged to profit or loss during the reporting period in which they are incurred.

Expenses incurred on property, plant and equipment, net of income earned during the under development stage prior to its intended use, are disclosed under Capital Work-in-progress.

b) Investment Property:

Investment properties are properties that are held to earn rentals and /or for capital appreciation and not occupied by the Company for its own use. Investment properties are measured initially at cost, including transaction costs and net of recoverable taxes. The cost includes the cost of replacing parts and borrowing costs if recognition criteria are met. When significant parts of the investment property are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. All other repair and maintenance costs are recognized in profit or loss as incurred. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

Investment properties are derecognized either when they have been disposed of or when they are being occupied by the Company for its own use or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss in the period of de-recognition.

c) Depreciation methods, estimated useful lives and residual value:

Depreciation on Property, Plant and Equipment and Investment Property is provided using the Straight Line Method based on the useful life of the assets as estimated by the management and is charged to the Statement of Profit and Loss as per the requirement of Schedule II of the Companies Act, 2013. The estimate of the useful life of the assets has been assessed based on technical advice which considered the nature of the asset, the usage of the asset, expected physical wear and tear, the operating conditions of the asset, anticipated technological changes, manufacturers warranties and maintenance support, etc. The estimated useful life of Property, Plant & Equipment and Investment Property is mentioned below:

Asset Class	Years
Factory Buildings	30
Buildings (other than Factory Buildings)	60
Plant and Equipment	15
Electrical Installations	10
Patterns and Mouldings	8
Kitchen Equipment	5

Furniture and Fixtures and Office equipment:-	
-Office furniture	10
-Computers	3
-Office equipment	5
Vehicles	10

Freehold land is not depreciated. Leasehold land and Leasehold improvements are amortised over the period of the lease. Depreciation methods, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate

d) Non-Current Assets held for sale:

The Company classifies non-current assets as held for sale if their carrying amounts will be recovered principally through a sale rather than through continuing use of the assets and actions required to complete such sale indicate that it is unlikely that significant changes to the plan to sell will be made or that the decision to sell will be withdrawn. Also, such assets are classified as held for sale only if the management expects to complete the sale within one year from the date of classification.

Non-current assets classified as held for sale are measured at the lower of their carrying amount and the fair value less cost to sell. Non-current assets are not depreciated or amortised.

e) Intangible assets:

Intangible Assets are stated at cost of acquisition less accumulated amortization and accumulated impairment, if any. Amortization is done over their estimated useful life on straight line basis from the date that they are available for intended use, subjected to impairment test. Purchase cost and consultancy fees for major software are amortized over the useful life of the software. Software, which is not an integral part of the related hardware is classified as an intangible asset and is amortized over the useful life of 6 years.

f) Impairment of Assets:

At each balance sheet date, the Company's carrying amount of assets are reviewed to determine whether there is any indication of impairment. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less cost of disposal and value in use. If any such impairment exists, the recoverable amount of an asset is estimated to determine the extent of impairment, if any.

g) Inventories:

Raw materials, work in progress, stores and spares and finished goods are valued at the lower of cost or net realizable value. However, materials and other items held for use in production of inventories are not written down below cost if the finished goods in which they will be incorporated are expected to be sold at or above cost. The comparison of cost and net realizable value is made on an item-by item basis.

In determining the cost of raw materials, packing material and stores and spares, weighted average method is used.

Cost of work in progress and finished goods comprises direct materials, direct labour, and an appropriate share of manufacturing overheads.

Cost of Inventories comprises of costs of purchase, cost of conversion, duties and taxes (other than those refundable), inward freight and all other costs incurred in bringing them to their respective present location and condition.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

h) Financial Instruments:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

1. Investments and other Financial Assets:

(i) Classification:

The Company classifies its financial assets in following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortised cost

The classification depends on entity's business model for managing financial assets and the contractual terms of cash flow.

(ii) Initial recognition and measurement:

At initial recognition, the Company measures a financial asset at fair value, plus in case of a financial asset not at fair value through profit and loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transactions costs of financial assets carried at fair value through profit and loss are expensed in profit or loss.

(iii) Financial Assets measured at amortised cost:

Financial assets are measured at amortised cost when asset is held within a business model, whose objective is to hold assets for collecting contractual cash flows and contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest. Such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. A gain or loss on such an instrument is recognised in profit or loss. Interest income from these financial assets is included in other income using effective interest method. The losses arising from impairment are recognised in the Statement of Profit and Loss.

(iv) Financial Assets measured at fair value through other comprehensive income (FVTOCI):

Assets that are held for collection of contractual cash flows and for selling the financial assets, where represent solely payments of principal and interest, are measured at fair value initially as well as at each reporting date through other comprehensive income. Fair value movements in the carrying amount are recognized in the other comprehensive income, except for the recognition of impairment of gains and losses, interest revenue and foreign exchange gain or loss which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains / (losses). Interest income from these financial assets is included in other income using the effective interest rate method.

(v) Financial Assets measured at fair value through profit or loss (FVTPL):

Assets that do not meet the criteria for amortised cost or FVTOCI are measured initially as well as at each reporting date at fair value through profit or loss as other income. Income from these financial assets is included in other income.

(vi) Investment in Subsidiary and Associates:

Investment in equity instruments of Subsidiaries and Associates are measured at cost in accordance with the option available in Ind AS 27, "Separate Financial Statements".

Investment in subsidiary and associate companies are reviewed for impairment, whenever events or changes in circumstances indicate that carrying amount may not be recoverable. Such circumstances include, though are not limited to, significant or sustained decline in revenues or earnings and material adverse changes in economic environment.

(vii) Investment in Equity Instruments:

Equity instruments which are held for trading are classified as at FVTPL. All other equity instruments are classified as FVTOCI.

Fair value changes in case of the equity instruments classified as FVTOCI are recognised in the Other Comprehensive Income. There is no subsequent reclassification of gains and losses from other comprehensive income to profit or loss.

Changes in the fair value of financial assets at fair value through profit or loss are recognised in other gains / (losses) in the statement of profit and loss. Dividend from such investments are recognised in profit and loss as other income when the Company's right to receive payments is established. Impairment loss (and reversal of impairment loss) on equity instruments measured at FVTOCI are not accounted separately from other changes in fair value.

(viii) Investment in Debt Instruments:

A debt instrument is measured at amortised cost or at FVTPL. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVOCI, is classified as at FVTPL. Debt instruments included within the FVTPL category are measured at fair value with all changes recognised in the Statement of Profit and Loss.

(ix) Impairment of Financial Assets:

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised is recognized as an impairment gain or loss in profit or loss.

(x) De-recognition of Financial Assets:

A financial asset is primarily derecognised when the rights to receive cash flows from the asset have expired or the Company has transferred its rights to receive cash flows from the asset.

A financial asset is derecognised only when the Company –

- has transferred the right to receive cash flows from the financial asset or
- retains contractual rights to receive the cash flows of the financial asset, but assumes contractual obligation to pay the cash flows to one or more recipients or
- does not retain the control of the financial asset or
- does not have continuing involvement in the financial asset.

When the Company has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of financial assets. In such cases, financial asset is derecognised. When the entity has not transferred substantially all risks and rewards of ownership of financial asset, the financial asset is not derecognised.

(xi) Income recognition:

Interest income from debt instruments is recognised using effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When computing effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instruments.

Dividends are recognised in profit and loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of dividend can be measured reliably.

2. Financial Liabilities:

i) Classification:

The Company classifies all financial liabilities as subsequently measured at amortised cost, except for financial liabilities at fair value through profit or loss.

ii) Initial recognition and measurement:

All financial liabilities that are classified as to be subsequently measured not at Fair value through Profit and Loss (FVTPL), are recognised initially at fair value, being transaction price net of directly attributable transaction costs. Financial liabilities include trade and other payables, security deposits etc.

iii) Subsequent measurement:

All Financial liabilities are subsequently measured at amortised cost using the Effective Interest Rate (EIR) method. The EIR amortisation is included as finance costs in the statement of profit and loss.

iv) De-recognition of Financial Liabilities:

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

3. Offsetting Financial Instruments:

Financial assets and liabilities are offset, and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

i) Provisions and Contingencies:

A provision is recognised, if as a result of a past event the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are measured at the present value of the management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is the pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Contingent Liabilities are not recognised but are disclosed in the notes. Contingent Assets are not recognised but disclosed in the Financial Statements when economic inflow is probable.

j) Segment Reporting:

Operating segments have been identified on the basis of the nature of business activities from which the Company earns revenues or incurs expenses and for which discrete financial information is available. The Management monitors the operating results of its business segments for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on profit or loss and is measured consistently with profit or loss in the financial statements. The Operating segments have been identified on the basis of the nature of products / services.

1. Segment revenue includes sales and other income directly identifiable with/ allocable to the segment including inter-segment revenue.
2. Expenses that are directly identifiable with / or allocable to segments are considered for determining the segment result. Expenses which relate the Company as a whole and not allocable to segments are included in un-allocable expenditure.
3. Income which relates to the Company as a whole and not allocable to segments is included in un-allocable income.
4. Segment assets and liabilities include those directly identifiable with the respective segments. Un-allocable assets and liabilities represent the assets and liabilities that relate to the Company as a whole and not allocable to any segment.

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker.

k) Revenue Recognition:

Revenue is measured at the fair value of the consideration received or receivable. The Company recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of the Company's activities as described below.

Recognition of revenue from major business activities:

1. Revenue from Industrial Capital Goods Division operations includes sale of manufactured machines and capital equipment, engineering fees, services and other charges. Revenue from sale of goods is recognized when all the control on the goods have been transferred to the buyer as per the terms of the contracts and no significant uncertainty exists regarding the amount of consideration that will be derived from the sale of goods.
2. Revenue from Bombay Exhibition Centre operations includes income from renting of halls for exhibitions, events and providing other related services to the organisers. Revenue from such renting activity and the related services is recognised in the accounting period in which the event occurs.
3. Revenue from IT Park operations includes income of renting of office space in IT park and providing related services to IT / ITES companies.
4. Interest income is recognised using effective interest method and dividend income is recognised when the right to receive the payment is established.

l) Income tax:

Income tax expense comprises current tax and deferred tax. It is recognised in statement of profit and loss except to the extent that it relates to a business combination, or items recognised directly in equity or in other comprehensive income.

1. Current tax:

Current tax comprises of the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of the previous years. It is measured using tax rates enacted or substantively enacted at the reporting date.

Current tax assets and liabilities are offset only if, the Company:

- has a legally enforceable right to set off the recognised amounts; and
- Intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

2. Deferred tax:

Deferred tax is recognized for the future tax consequences of deductible temporary differences between the carrying values of assets and liabilities and their respective tax bases at the reporting date, using the tax rates and laws that are enacted or substantively enacted as on reporting date. Deferred tax assets are recognized to the extent that it is probable that future taxable income will be available against which the deductible temporary differences, unused tax losses and credits can be utilised. Deferred tax relating to items recognised in other comprehensive income and directly in equity is recognised in correlation to the underlying transaction.

Deferred tax assets and liabilities are offset only if:

- Entity has a legally enforceable right to set off current tax assets against current tax liabilities; and
- Deferred tax assets and the deferred tax liabilities relate to the income taxes levied by the same taxation authority.

m) Cash and cash equivalents:

Cash and cash equivalents include cash on hand, Balances with Banks, other short term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

n) Trade Receivables:

Trade receivables are non-interest bearing and receivable in normal operating cycle. Trade receivables are recognised initially at fair value (that is transaction price on initial recognition) and subsequently measured at amortised cost using effective interest method, less provision for impairment.

o) Leases

The Company's lease asset classes primarily consist of leases for land and office premises. The Company, at the inception of a contract, assesses whether the contract is a lease or not lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a time in exchange for a consideration. This policy has been applied to contracts existing and entered into on or after 01 April 2019.

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the Company's incremental borrowing rate. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, or if the Company changes its assessment of whether it will exercise a purchase, extension or termination option. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The Company has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets (assets of less than Rs. 1,00,000 in value). The Company recognises the lease payments associated with these leases as an expense over the lease term.

Leases as lessor

When the Company acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease. To classify each lease, the Company makes an overall assessment of whether the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then it is an operating lease. As part of this assessment, the Company considers certain indicators such as whether the lease is for the major part of the economic life of the asset. When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the Company applies the exemption described above, then it classifies the sub-lease as an operating lease. The Company recognises lease payments received under operating leases as income on a straight-line basis over the lease term as part of 'revenue from operation'.

p) Earnings Per Share:

Basic Earnings per share is calculated by dividing:

- the profit attributable to owners of the Company
- by the weighted average number of equity shares outstanding during the financial year

q) Employee Benefits:**1. Short term obligations:**

All employee benefits payable wholly within twelve months of rendering the service are classified as short term employee benefits and they are recognized in the period in which the employee renders the related service. The Company recognizes the undiscounted amount of short term employee benefits expected to be paid in exchange for services rendered as a liability (accrued expense) after deducting any amount already paid.

2. Other long term employee obligations:

Entitlements to annual leave are recognized when they accrue to employees. Annual leave can either be availed or encashed at the time of separation or retirement subject to a restriction on the maximum number of 42 days of accumulation of leave. The Company determines the liability for such accumulated leaves using the Projected Unit Credit method with actuarial valuations being carried out at each Balance Sheet date.

3. Post-employment obligations:

The Company operates the following post-employment schemes.

i) Defined benefit plans (gratuity):

The Company has unfunded defined benefit gratuity plan for employees.

Recognition and measurement of Defined Benefit plans:

The cost of providing defined benefits is determined using the Projected Unit Credit method with actuarial valuations being carried out at each reporting date. The defined benefit obligations recognized in the Balance Sheet represent the present value of the defined benefit obligations.

All expenses represented by current service cost, past service cost, if any, and net interest on the defined benefit liability / (asset) are recognized in the Statement of Profit and Loss. Re-measurements of the net defined benefit liability / (asset) comprising actuarial gains and losses are recognized in Other Comprehensive Income. Such re-measurements are not reclassified to the Statement of Profit and Loss in the subsequent periods.

The Company presents the above liability/(asset) as current and non-current in the Balance Sheet as per actuarial valuation by the independent actuary.

ii) Defined contribution plans such as provident fund:

The Company pays provident fund contributions to publicly administered provident funds as per local regulations. The Company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expenses when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

r) Proposed Dividend:

The final dividend recommended by the Board of Directors is accounted in the financial year in which it is approved by the shareholders in the Annual General Meeting.

s) Recent Accounting pronouncements:

There are no new accounting pronouncements that are applicable from 01 April 2020.

Note 3 - Key Accounting Estimates and Judgements:

The preparation of Financial Statements in accordance with Ind - AS requires use of estimates and assumptions for some items, which might have an effect on their recognition and measurement in the Balance Sheet and Statement of Profit and Loss. The actual amounts realised may differ from these estimates. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the management becomes aware of changes in circumstances surrounding the estimates. Differences between the actual results and estimates are recognised in the period in which the results are known / materialised and, if material, their effects are disclosed in the notes to the Financial Statements.

This note provides an overview of the areas that involved a higher degree of judgement or complexity and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the financial statements.

Critical accounting estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below:

a) Income Taxes:

The Company's tax jurisdiction is India. Significant judgements are involved in estimating budgeted profits for the purpose of paying advance tax, determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions.

b) Property, Plant and Equipment and Investment Property:

Property, Plant and Equipment and Investment Property represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Company's assets are determined by the management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technical or commercial obsolescence arising from changes or improvements in production or from a change in market demand of the product or service output of the asset.

c) Defined Benefit Obligation:

The costs of providing other post-employment benefits are charged to the Statement of Profit and Loss in accordance with Ind AS 19 'Employee benefits' over the period during which benefit is derived from the employees' services. The costs are assessed on the basis of assumptions selected by the management. These assumptions include salary escalation rate, discount rates, expected rate of return on assets and mortality rates.

d) Fair value measurement of Financial Instruments:

When the fair values of financial assets and financial liabilities recorded in the Balance Sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques, including the discounted cash flow model, which involve various judgements and assumptions.

e) Estimates of uncertainties relating to the global health pandemic from COVID-19:

The Company has considered the possible effects that may result from the pandemic relating to COVID -19 on the carrying amounts of receivables, investments etc. In developing the assumptions relating to the possible future uncertainties in the global economic conditions because of this pandemic, the Company, as at the date of approval of these financial statements has used internal and external sources of information including credit reports and economic forecasts. The Company has performed sensitivity analysis on the assumptions used and based on current estimates expects the carrying amount of these assets will be recovered. The impact of COVID-19 on the Company's financial statements may differ from that estimated as at the date of approval of these financial statements.

Fair value hierarchy

Statement of Changes in Equity for the year ended 31 March 2020

- Level 1 Quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments and mutual funds that have quoted price. The fair value of all equity instruments which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing NAV.
- Level 2 Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices). The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.
- Level 3 Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs). If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities included in level 3

The following table presents fair value hierarchy of assets and liabilities measured at fair value on a recurring basis as of 31 March 2020:

(₹ in lakhs)

Particulars	As of 31 March 2020	Fair value hierarchy at the end of the reporting period/year using		
		Level 1	Level 2	Level 3

Financial instrument measured at amortised cost

The carrying amount of financial assets and financial liabilities measured at amortised cost in the financial statements are a reasonable approximation of their fair values since the company did not anticipate that the carrying amounts would be significantly different from the values that would eventually be received or settled.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

Note 35 - Financial Risk Management:

Financial Risk Factors:

The Company's financial liabilities comprises mainly of trade payables and other payables. The Company's financial assets comprise mainly of investments, cash and cash equivalents, other balances with banks, loans, trade receivables and other receivables

The Company's activities are exposed to Market risk, credit risk and liquidity risk. The Company has set up Risk Management Committee in order to minimize any adverse effects of the risk exposure on the financial performance of the Company.

The Board has been monitoring the risks that the Company is exposed to due to outbreak of COVID 19 closely. The Board has taken all necessary actions to mitigate the risks identified basis the information and situation present.

1. Market Risk:

Market risk comprises of three types of risk: Currency Risk, Interest rate Risk and Other Price Risk.

a. Foreign Currency Risk:

Foreign currency risk is the risk that the fair value of future cash flows of an exposure will fluctuate due to changes in foreign currency exchange rates. The carrying amounts of the Company's foreign currency denominated monetary items are as follows:

(₹ in lakhs)

Particulars	Liabilities		Assets	
	As at 31 March 2020	As at 31 March 2019	As at 31 March 2020	As at 31 March 2019
Currency				
USD	NIL	NIL	0.81	5.03
EURO	NIL	NIL	2.72	NIL
OMR	NIL	NIL	0.08	NIL

The Company has not entered into any forward contract during the year ended 31 March 2020 and 31 March 2019. The Company has not entered into any forward instrument for trades or speculation purpose.

b. Interest Rate Risk:

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Since the Company has NIL interest bearing borrowings, the exposure to risk of changes in market interest rate is NIL. The Company has not used any interest rate derivatives

c. Other Price Risk:

Other Price risk is the risk that fair value of a financial instrument will fluctuate due to changes in market traded price. Other price risk arises from both financial assets such as investments in equity instruments and bonds.

The Company invests in units of mutual funds including Fixed Maturity Plans, various debt Funds and Equity funds, and hence exposed to Other Price risk. Company's Treasury dept. manages investments portfolio diversification in order to minimize risk and ongoing monitoring of market prices of investments.

2. Credit Risk:

Credit risk refers to the risk of default on its obligation by the counterparty resulting in financial loss. Trade receivables are typically unsecured and are derived from customers from four operations Nesco IT Park lease, Bombay Exhibition Centre (BEC) revenue, sale of Industrial Capital Goods and Nesco Foods

The maximum exposure to credit risk on account of trade receivables, at the reporting date is ₹1,603.13 lakhs and ₹ 1,804.03 lakhs as on 31 March 2020 and 31 March 2019 respectively.

The Company minimizes credit risk relating to IT Park lease, BEC and Hospitality business as follows:

- The Company obtains security deposits from IT Park lessees and entitled to terminate lease agreement in case lessee makes defaults in payment of lease for a period of two consecutive months.
- BEC customers are required to pay advance and place refundable security deposit with the Company.
- Hospitality customers are required to pay advances to the Company.

Whereas, in case of trade receivables from Industrial Capital Goods division for sale of machineries, credit risk is managed through credit approvals, establishing credit limits and continuously monitored by creditworthiness of customers to whom, credit terms are granted in normal course of business.

The Company takes into account available credit risk factors as Company's historical experience for customers, customers' standing for credit defaults in market.

The allowance for lifetime expected credit loss on customer balances as on 31 March 2020 and 31 March 2019 was ₹ 183.86 lakhs and ₹ 173.55 lakhs respectively.

Particulars	Year ended 31 March 2020	Year ended 31 March 2019
Balance at the beginning	173.55	18.16
Loss allowance measured at lifetime expected credit losses	10.31	155.39
Balance at the end	183.86	173.55

Credit risk of financial assets other than Trade receivables:

- Investments in mutual fund schemes are marked to market on ongoing basis, which is major part of total Non-current and current investments.
- Long term loans and advances include deposits with local authorities, electricity Board, electricity companies etc.
- Cash and Cash equivalents are balances with Public and Private Banks.
- Other current assets include deposits with more than 12 months maturities with Public and Private Banks and Earnest Money deposits with Govt. customer.

Credit risk arising from investment in mutual funds, financial instruments and other balances with banks is limited and there is no collateral held against these because the counterparties are banks and recognized financial institutions with high credit ratings assigned by the international credit rating agencies.

3. Liquidity Risk:

The Company's principal sources of liquidity are cash and cash equivalents, Balances and cash flows that are generated from business. The Company does not have any borrowings. The Company believes that their working capital is sufficient to meet its current requirements. Accordingly, no liquidity risk is perceived.

The Company manages the liquidity risk by maintaining adequate cash and cash equivalent ₹ 633.44 lakhs and ₹ 200.10 lakhs as on 31 March 2020 and 31 March 2019 respectively.

4. Risk due to Outbreak of COVID 19 Pandemic

The outbreak of COVID 19 pandemic globally and in India has severely impacted businesses and economies. There has been disruption to regular business operations due to the measures taken to curb the impact of the pandemic. The Company's plants and offices were shut post announcement of nationwide lockdown. Most of the operations have resumed post lifting of lockdown. The Company has considered external and internal information in assessing the impact of COVID 19 on various elements of its financial statements, including recoverability of its assets as at the Balance Sheet date.

Capital Management

For the purpose of the Company's capital management, capital includes issued capital and all other equity reserves attributable to the equity shareholders of the Company. The primary objective of the Company when managing capital is to safeguard its ability to continue as a going concern and to maintain an optimal capital structure so as to maximize shareholder value.

As at 31 March 2020, the Company has only one class of shares referred to as Equity Shares and has nil debt. Consequent to such capital structure, there are no externally imposed capital requirements. In order to maintain or achieve an optimal capital structure, the Company allocates its capital for distribution as dividend or re-investment into business based on its long term financial plans.

Note 41 - Leases:

Pursuant to Ind AS 116 – Leases, following information is disclosed:

Company as Lessor:

Ind AS 116 “Leases” requires the lessor to recognize lease income from operating leases on a straight-line basis over the lease term which includes rent free period. Thus, contracted lease rental income including future escalation is straight lined over the lease term. This has resulted in recognizing unearned lease income amounting to ₹ 6,071.40 lakhs for the year ended 31 March 2020.

The Company has entered into operating leases on its Investment Property located at Byculla and Goregaon IT Park premises:

Future minimum rentals accrued under these non-cancellable operating leases are, as follows:

Opinion

We have audited the accompanying consolidated financial statements of Nesco Limited ("the Holding Company") and its subsidiaries (the Holding company and its subsidiaries together referred to as "the Group"), which comprise the Consolidated Balance Sheet as at 31 March 2020, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information (herein after referred to as 'the consolidated financial statements').

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports on separate financial statement and on the other financial information of subsidiaries, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Group as at 31 March 2020, the consolidated profit, consolidated total comprehensive income, consolidated changes in equity and its consolidated cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditors Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined that the matters described below to be the Key Audit Matters to be communicated in the Report:

Sr. No.	Key Audit Matters	How was the matter addressed in our audit
1.	<p>Capital work-in-progress / Investment Property</p> <p>The Holding Company has constructed Tower 04 in Nesco IT Park for providing office space on lease and licence basis to Companies engaged in IT/ITeS and related business activities. In the current year, said tower is ready for use and capitalised under Investment Property at ₹ 57,000.62 lakhs. Timing of capitalization of the project and /or classification of categories of items of Investment Property, deciding useful life for depreciation if done incorrectly, could result in material misstatement of Investment Property with a consequent impact on depreciation charge and results for the year.</p> <p>Refer Note 4(a) & 5 to the Consolidated Financial Statements.</p>	<p>Our audit procedures included testing the design, implementation and operating effectiveness of controls in respect of timing of capitalization and recording of additions to items of various categories of Investment property with source documentation, substantive testing of appropriateness of the cut-off date considered for capitalization.</p> <p>We tested the source documentation to determine whether the expenditure is of Capital nature and has been properly approved and segregated into appropriate categories.</p> <p>We reviewed operating expenses to determine appropriateness of accounting.</p> <p>Further, through site visit, we physically verified existence of property and allied assets.</p>
2	<p>Enhancement of Company's ERP System</p> <p>During the year, the Holding Company has enhanced its ERP system by migrating from Tally ERP to SAP S/4 HANA resulting into a significant change to the financial accounting configuration which is the core for financial reporting.</p> <p>During any period of significant system change, there is an increased risk to the internal financial control environment following system integration, migration of activities and other changes.</p>	<p>We have ensured accurate migration of all the accounting records from Tally to SAP especially closing balances as on the date of migration.</p> <p>Our audit procedures focused on key processes and controls over the system critical to our audit. These included management of the systems, access to the systems, automated processes logic check, operations, back-up and restore.</p> <p>We updated our understanding of the Company's applications and transitions that have impacted our financial statement audit by carrying out walk through tests.</p>

Information Other than the Consolidated Financial Statements and Auditor's Report Thereon

The Holding Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Corporate Governance and Shareholder's Information, but does not include the consolidated financial statements and our auditor's report thereon. Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act, with respect to the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance, consolidated changes in equity and consolidated cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance

with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibility for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in the internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

We did not audit the financial statements of a subsidiary entity "Nesco Hospitality Private Limited", whose financial statements reflect total assets of ₹ 338.11 lakhs as at 31 March 2020, total revenues of ₹ 16.04 lakhs, total comprehensive income of ₹ 11.43 lakhs and net cash flows amounting to ₹ 10.35 lakhs for the year ended on that date, as considered in the consolidated financial statements. These financial statements have been audited by other auditor whose report has been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiary and our report in terms of Sub-Sections (3) and (11) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiary are based solely on the report of the other auditors.

Our opinion on the consolidated financial statements and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the report of the other auditors.

Report on Other Legal and Regulatory Requirements

- 1) As required by Section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
 - (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books.
 - (c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows dealt with by this Report are in agreement with the books of account;
 - (d) In our opinion, the aforesaid consolidated financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act read with Rule 7 of the Companies (Accounts) Rules, 2014;
 - (e) On the basis of the written representations received from the directors of the Holding Company as on 31 March 2020 taken on record by the Board of Directors of the Holding Company, and the report of the statutory auditors of the subsidiary companies incorporated in India, none of the director is disqualified as on 31 March 2020 from being appointed as a director in terms of Section 164(2) of the Act;
 - (f) With respect to the adequacy of the internal financial controls over financial reporting of the group and the operating effectiveness of such controls, refer to our separate report in "Annexure A";

- (g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of Section 197(16) of the Act, as amended, we report that In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Holding Company to its directors during the year is in accordance with the provisions of Section 197 of the Act.
- (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
- (i) The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group – Refer Note 36 (1) and (2) to the consolidated financial statements.
- (ii) The Group did not have any long term contracts including derivative contracts for which there were any material foreseeable losses; and
- (iii) There has been no delay in transferring amounts, required to be transferred to the Investor Education and Protection Fund by the Holding Company.

ANNEXURE – A TO THE INDEPENDENT AUDITOR’S REPORT

The Annexure referred to in paragraph 1(f) under “Report on Other Legal and Regulatory Requirements” section of our report of even date,

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

In conjunction with our audit of the Consolidated financial statements of the Company as of and for the year ended 31 March 2020, we have audited the internal financial controls over financial reporting of the Nesco Limited (“the Holding Company”) and its subsidiary Companies which are incorporated in India, as of that date.

Management’s Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company and its Subsidiary Companies, which are Companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (“the Act”).

Auditor’s Responsibility

Our responsibility is to express an opinion on internal financial controls over financial reporting of the Company and its subsidiary companies incorporated in India based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by ICAI (the “Guidance Note”) and the Standards on Auditing prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and audit evidence obtained by the other auditor of the subsidiary Companies incorporated in India in terms of their report referred to in the Other Matters paragraph below is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company and its subsidiary companies incorporated in India.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company and its Subsidiary Companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2020, based on the internal control over financial reporting criteria established by these Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it relates to subsidiary companies incorporated in India, is based on the corresponding report of the auditor of such Company.

ACCOUNTING POLICIES

Group Background

Nesco Limited ("Nesco" or "the Company") was incorporated on 15 April 1946, under the Indian Companies Act VII of 1913. The Company is domiciled in India having registered office at Nesco Center, Western Express Highway, Goregaon (East), Mumbai 400063 and listed on the BSE Limited (BSE) and the National Stock Exchange of India Limited (NSE). These financial statements comprise the Company and its subsidiaries (referred to collectively as "the Group").

The Group is mainly engaged in the following:

- i) Licencing premises in IT park buildings and providing related services.
- ii) Licencing premises for exhibitions and providing services to the organisers.
- iii) Manufacturing of machines and capital equipment.
- iv) Hospitality and catering services

Note 1 - Basis of Preparation of Consolidated Financial Statements

a) Compliance with Ind AS:

These consolidated financial statements have been prepared in compliance with Indian Accounting Standards (Ind-AS) notified under Section 133 of the Companies Act 2013 (The Act), read together with the Companies (Indian Accounting Standards) Rules, 2015 (as amended).

These consolidated financial statements have been prepared and presented under the historical cost convention, on the accrual basis of the accounting except for certain financial assets and financial liabilities that are measured at fair values at the end of each reporting period, as stated in the accounting policies set out below. The accounting policies have been applied consistently over all the periods presented in these consolidated financial statements.

b) Current / Non-Current Classification:

Any asset or liability is classified as current if it satisfies any of the following conditions:-

- i) The asset / liability is expected to be realised / settled in the Group's normal operating cycle;
- ii) The asset is intended for sale or consumption;
- iii) The asset/liability is held primarily for the purpose of trading;
- iv) The asset/liability is expected to be realised / settled within twelve months after the reporting period;
- v) The asset is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting cycle;
- vi) In the case of a liability, the Group does not have an unconditional right to defer settlement of a liability for at least twelve months after the reporting cycle;

All other assets and liabilities are classified as non-current.

For the purpose of current/non-current classification of assets and liabilities, the Group has ascertained its normal operating cycle as twelve months. This is based on the nature of services and the time between the acquisition of assets or inventories for processing their realisation in cash and cash equivalents.

c) Functional and Presentation Currency:

The Consolidated Financial Statements are presented in Indian rupees which is the functional currency for the Group. Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions are recognised in profit or loss. Foreign exchange gains and losses are presented in the statement of profit and loss on a net basis.

d) Rounding of Amounts:

All amounts disclosed in the consolidated financial statements and notes have been rounded off to the nearest lakhs as per the requirement of schedule III, unless otherwise stated.

Note 2 - Significant Accounting Policies**a) Property, Plant and Equipment:**

Freehold land is carried at historical cost. All other items of property, plant and equipment are carried at the historical cost, less accumulated depreciation and accumulated impairment losses if any. The cost of Property, Plant and Equipment comprises of its purchase price, including import duties and other non-refundable taxes or levies and any directly attributable cost of bringing the asset to its working condition for its intended use.

Subsequent recognition is done in assets carrying amount or as a separate asset only when it is probable that future economic benefits associated with the item will flow to the entity and the cost of the item can be measured reliably. Profit or Loss on disposal of Property, Plant and Equipment is recognised in the Statement of Profit and Loss. All other repairs and maintenance expenses are charged to profit or loss during the reporting period in which they are incurred.

Expenses incurred on property, plant and equipment, net of income earned during the under development stage prior to its intended use, are disclosed under Capital Work-in-progress.

b) Investment Property:

Investment properties are properties that are held to earn rentals and /or for capital appreciation and not occupied by the Group for its own use. Investment properties are measured initially at cost, including transaction costs and net of recoverable taxes. The cost includes the cost of replacing parts and borrowing costs if recognition criteria are met. When significant parts of the investment property are required to be replaced at intervals, the Group depreciates them separately based on their specific useful lives. All other repair and maintenance costs are recognized in profit or loss as incurred. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

Investment properties are derecognized either when they have been disposed of or when they are being occupied by the Group for its own use or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss in the period of de-recognition.

c) Depreciation methods, estimated useful lives and residual value:

Depreciation on Property, Plant and Equipment and Investment Property is provided using the Straight Line Method based on the useful life of the assets as estimated by the management and is charged to the Statement of Profit and Loss as per the requirement of Schedule II of the Companies Act, 2013. The estimate of the useful life of the assets has been assessed based on technical advice which considered the nature of the asset, the usage of the asset, expected physical wear and tear, the operating conditions of the asset, anticipated technological changes, manufacturers warranties and maintenance support, etc. The estimated useful life of Property, Plant & Equipment and Investment Property is mentioned below:

Asset Class	Years
Factory Buildings	30
Buildings (other than Factory Buildings)	60
Plant and Equipment	15
Electrical Installations	10
Patterns and Mouldings	8
Kitchen Equipment	5

Furniture and Fixtures and Office equipment:-	
-Office furniture	10
-Computers	3
-Office equipment	5
Vehicles	10

Freehold land is not depreciated. Leasehold land and Leasehold improvements are amortised over the period of the lease. Depreciation methods, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

d) Non-Current Assets held for sale:

The Group classifies non-current assets as held for sale if their carrying amounts will be recovered principally through a sale rather than through continuing use of the assets and actions required to complete such sale indicate that it is unlikely that significant changes to the plan to sell will be made or that the decision to sell will be withdrawn. Also, such assets are classified as held for sale only if the management expects to complete the sale within one year from the date of classification.

Non-current assets classified as held for sale are measured at the lower of their carrying amount and the fair value less cost to sell. Non-current assets are not depreciated or amortised.

e) Intangible assets:

Intangible Assets are stated at cost of acquisition less accumulated amortization and accumulated impairment, if any. Amortization is done over their estimated useful life on straight line basis from the date that they are available for intended use, subjected to impairment test. Purchase cost and consultancy fees for major software are amortized over the useful life of the software. Software, which is not an integral part of the related hardware is classified as an intangible asset and is amortized over the useful life of 6 years.

f) Impairment of Assets:

At each balance sheet date, the Group's carrying amount of assets are reviewed to determine whether there is any indication of impairment. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less cost of disposal and value in use. If any such impairment exists, the recoverable amount of an asset is estimated to determine the extent of impairment, if any.

g) Inventories:

Raw materials, work in progress, stores and spares and finished goods are valued at the lower of cost or net realizable value. However, materials and other items held for use in production of inventories are not written down below cost if the finished goods in which they will be incorporated are expected to be sold at or above cost. The comparison of cost and net realizable value is made on an item-by item basis.

In determining the cost of raw materials, packing material and stores and spares, weighted average method is used.

Cost of work in progress and finished goods comprises direct materials, direct labour, and an appropriate share of manufacturing overheads.

Cost of Inventories comprises of costs of purchase, cost of conversion, duties and taxes (other than those refundable), inward freight and all other costs incurred in bringing them to their respective present location and condition.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

h) Financial Instruments:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

1. Investments and other Financial Assets:

(i) Classification:

The Group classifies its financial assets in following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortised cost

The classification depends on entity's business model for managing financial assets and the contractual terms of cash flow.

(ii) Initial recognition and measurement:

At initial recognition, the Group measures a financial asset at fair value, plus in case of a financial asset not at fair value through profit and loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transactions costs of financial assets carried at fair value through profit and loss are expensed in profit or loss.

(iii) Financial Assets measured at amortised cost:

Financial assets are measured at amortised cost when asset is held within a business model, whose objective is to hold assets for collecting contractual cash flows and contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest. Such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. A gain or loss on such an instrument is recognised in profit or loss. Interest income from these financial assets is included in other income using effective interest method. The losses arising from impairment are recognised in the Statement of Profit and Loss.

(iv) Financial Assets measured at fair value through other comprehensive income (FVTOCI):

Assets that are held for collection of contractual cash flows and for selling the financial assets, where represent solely payments of principal and interest, are measured at fair value initially as well as at each reporting date through other comprehensive income. Fair value movements in the carrying amount are recognized in the other comprehensive income, except for the recognition of impairment of gains and losses, interest revenue and foreign exchange gain or loss which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains / (losses). Interest income from these financial assets is included in other income using the effective interest rate method.

(v) Financial Assets measured at fair value through profit or loss (FVTPL):

Assets that do not meet the criteria for amortised cost or FVTOCI are measured initially as well as at each reporting date at fair value through profit or loss as other income. Income from these financial assets is included in other income.

(vi) Investment in Equity Instruments:

Equity instruments which are held for trading are classified as at FVTPL. All other equity instruments are classified as FVTOCI.

Fair value changes in case of the equity instruments classified as FVTOCI are recognised in the Other Comprehensive Income. There is no subsequent reclassification of gains and losses from other comprehensive income to profit or loss.

Changes in the fair value of financial assets at fair value through profit or loss are recognised in other gains / (losses) in the statement of profit and loss. Dividend from such investments are recognised in profit and loss as other income when the Group's right to receive payments is established. Impairment loss (and reversal of impairment loss) on equity instruments measured at FVTOCI are not accounted separately from other changes in fair value.

(vii) Investment in Debt Instruments:

A debt instrument is measured at amortised cost or at FVTPL. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVOCI, is classified as at FVTPL. Debt instruments included within the FVTPL category are measured at fair value with all changes recognised in the Statement of Profit and Loss.

(viii) Impairment of Financial Assets:

The Group recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised is recognized as an impairment gain or loss in profit or loss.

(ix) De-recognition of Financial Assets:

A financial asset is primarily derecognised when the rights to receive cash flows from the asset have expired or the Group has transferred its rights to receive cash flows from the asset.

A financial asset is derecognised only when the Group –

- has transferred the right to receive cash flows from the financial asset or
- retains contractual rights to receive the cash flows of the financial asset, but assumes contractual obligation to pay the cash flows to one or more recipients or
- does not retain the control of the financial asset or
- does not have continuing involvement in the financial asset.

When the Group has transferred an asset, the Group evaluates whether it has transferred substantially all risks and rewards of ownership of financial assets. In such cases, financial asset is derecognised. When the entity has not transferred substantially all risks and rewards of ownership of financial asset, the financial asset is not derecognised.

(x) Income recognition:

Interest income from debt instruments is recognised using effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When computing effective interest rate, the Group estimates the expected cash flows by considering all the contractual terms of the financial instruments.

Dividends are recognised in profit and loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the Group, and the amount of dividend can be measured reliably.

2. Financial Liabilities:

i) Classification:

The Group classifies all financial liabilities as subsequently measured at amortised cost, except for financial liabilities at fair value through profit or loss.

ii) Initial recognition and measurement:

All financial liabilities that are classified as to be subsequently measured not at Fair value through Profit and Loss (FVTPL), are recognised initially at fair value, being transaction price net of directly attributable transaction costs. Financial liabilities include trade and other payables, security deposits etc.

iii) Subsequent measurement:

All Financial liabilities are subsequently measured at amortised cost using the Effective Interest Rate (EIR) method. The EIR amortisation is included as finance costs in the statement of profit and loss.

iv) De-recognition of Financial Liabilities:

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

3. Offsetting Financial Instruments:

Financial assets and liabilities are offset, and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

i) Provisions and Contingencies:

A provision is recognised, if as a result of a past event the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are measured at the present value of the management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is the pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Contingent Liabilities are not recognised but are disclosed in the notes. Contingent Assets are not recognised but disclosed in the Financial Statements when economic inflow is probable.

j) Segment Reporting:

Operating segments have been identified on the basis of the nature of business activities from which the Group earns revenues or incurs expenses and for which discrete financial information is available. The Management monitors the operating results of its business segments for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on profit or loss and is measured consistently with profit or loss in the financial statements. The Operating segments have been identified on the basis of the nature of products / services.

1. Segment revenue includes sales and other income directly identifiable with/ allocable to the segment including inter-segment revenue.
2. Expenses that are directly identifiable with/ or allocable to segments are considered for determining the segment result. Expenses which relate the Group as a whole and not allocable to segments are included in un-allocable expenditure.
3. Income which relates to the Group as a whole and not allocable to segments is included in un-allocable income.
4. Segment assets and liabilities include those directly identifiable with the respective segments. Un-allocable assets and liabilities represent the assets and liabilities that relate to the Group as a whole and not allocable to any segment.

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker.

k) Revenue Recognition:

Revenue is measured at the fair value of the consideration received or receivable. The Group recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of the Group's activities as described below.

Recognition of revenue from major business activities:

1. Revenue from Industrial Capital Goods Division operations includes sale of manufactured machines and capital

equipment, engineering fees, services and other charges. Revenue from sale of goods is recognized when all the control on the goods have been transferred to the buyer as per the terms of the contracts and no significant uncertainty exists regarding the amount of consideration that will be derived from the sale of goods.

2. Revenue from Bombay Exhibition Centre operations includes income from renting of halls for exhibitions, events and providing other related services to the organisers. Revenue from such renting activity and the related services is recognised in the accounting period in which the event occurs.
3. Revenue from IT Park operations includes income of renting of office space in IT park and providing related services to IT /ITES companies.
4. Interest income is recognised using effective interest method and dividend income is recognised when the right to receive the payment is established.

l) Income tax:

Income tax expense comprises current tax and deferred tax. It is recognised in statement of profit and loss except to the extent that it relates to a business combination, or items recognised directly in equity or in other comprehensive income.

1. Current tax:

Current tax comprises of the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of the previous years. It is measured using tax rates enacted or substantively enacted at the reporting date.

Current tax assets and liabilities are offset only if, the Group:

- has a legally enforceable right to set off the recognised amounts; and
- Intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

2. Deferred tax:

Deferred tax is recognized for the future tax consequences of deductible temporary differences between the carrying values of assets and liabilities and their respective tax bases at the reporting date, using the tax rates and laws that are enacted or substantively enacted as on reporting date. Deferred tax assets are recognized to the extent that it is probable that future taxable income will be available against which the deductible temporary differences, unused tax losses and credits can be utilised. Deferred tax relating to items recognised in other comprehensive income and directly in equity is recognised in correlation to the underlying transaction.

Deferred tax assets and liabilities are offset only if:

- Entity has a legally enforceable right to set off current tax assets against current tax liabilities; and
- Deferred tax assets and the deferred tax liabilities relate to the income taxes levied by the same taxation authority.

m) Cash and cash equivalents:

Cash and cash equivalents include cash on hand, Balances with Banks, other short term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

n) Trade Receivables:

Trade receivables are non-interest bearing and receivable in normal operating cycle. Trade receivables are recognised initially at fair value (that is transaction price on initial recognition) and subsequently measured at amortised cost using effective interest method, less provision for impairment.

o) Leases

The Company's lease asset classes primarily consist of leases for land and office premises. The Company, at the inception of a contract, assesses whether the contract is a lease or not lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a time in exchange for a consideration. This policy has been applied to contracts existing and entered into on or after 01 April 2019.

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the Company's incremental borrowing rate. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, or if the Company changes its assessment of whether it will exercise a purchase, extension or termination option. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The Company has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets (assets of less than Rs. 1,00,000 in value). The Company recognises the lease payments associated with these leases as an expense over the lease term.

Leases as lessor

When the Company acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease. To classify each lease, the Company makes an overall assessment of whether the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then it is an operating lease. As part of this assessment, the Company considers certain indicators such as whether the lease is for the major part of the economic life of the asset. When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the Company applies the exemption described above, then it classifies the sub-lease as an operating lease. The Company recognises lease payments received under operating leases as income on a straight-line basis over the lease term as part of 'revenue from operation'.

p) Earnings Per Share:

Basic Earnings per share is calculated by dividing:

- the profit attributable to owners of the Group
- by the weighted average number of equity shares outstanding during the financial year

q) Employee Benefits:

1. Short term obligations:

All employee benefits payable wholly within twelve months of rendering the service are classified as short term employee benefits and they are recognized in the period in which the employee renders the related service. The Group recognizes the undiscounted amount of short term employee benefits expected to be paid in exchange for services rendered as a liability (accrued expense) after deducting any amount already paid.

2. Other long term employee obligations:

Entitlements to annual leave are recognized when they accrue to employees. Annual leave can either be availed or encashed at the time of separation or retirement subject to a restriction on the maximum number of 42 days of accumulation of leave. The Group determines the liability for such accumulated leaves using the Projected Unit Credit method with actuarial valuations being carried out at each Balance Sheet date.

3. Post-employment obligations:

The Group operates the following post-employment schemes.

r) Defined benefit plans (gratuity):

The Group has unfunded defined benefit gratuity plan for employees.

Recognition and measurement of Defined Benefit plans:

The cost of providing defined benefits is determined using the Projected Unit Credit method with actuarial valuations being carried out at each reporting date. The defined benefit obligations recognized in the Balance Sheet represent the present value of the defined benefit obligations.

All expenses represented by current service cost, past service cost, if any, and net interest on the defined benefit liability / (asset) are recognized in the Statement of Profit and Loss. Re-measurements of the net defined benefit liability / (asset) comprising actuarial gains and losses are recognized in Other Comprehensive Income. Such re-measurements are not reclassified to the Statement of Profit and Loss in the subsequent periods.

The Group presents the above liability/(asset) as current and non-current in the Balance Sheet as per actuarial valuation by the independent actuary.

ii) Defined contribution plans such as provident fund:

The Group pays provident fund contributions to publicly administered provident funds as per local regulations. The Group has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expenses when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

s) Proposed Dividend:

The final dividend recommended by the Board of Directors is accounted in the financial year in which it is approved by the shareholders in the Annual General Meeting.

t) Basis of Consolidation:

The consolidated financial statements relate to the Nesco Limited and its subsidiary companies. The consolidated financial statements have been prepared on the following basis:

The consolidated financial statements of the Group and its subsidiaries are combined on a line-by-line basis by adding together the book values of the like items of assets, liabilities, income and expenses, after fully eliminating intra-group balances and intra-group transactions in accordance with Ind - AS 110 "Consolidated Financial Statements".

- Subsidiaries are the entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the Consolidated Financial Statements from the date on which control commences until the date on which control ceases.
- Non-controlling interests (NCI): Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statement of profit and loss, consolidated statement of changes in equity and balance sheet respectively. NCI are measured at their proportionate share of the acquirer's identifiable net assets.
- Transactions eliminated on consolidation: Intra-group balances and transactions and any unrealised income and expenses arising from intra-group transactions, net of deferred taxes, are eliminated. Unrealised gains and losses are eliminated unless the transaction provides evidence of impairment of the transferred asset.
- The Consolidated Financial Statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented in the same manner as the Company's separate financial statements. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.
- Associates are all entities over which the Group has significant influence but no control or joint control. This is generally the case where the Group holds between 20% to 50% of the voting rights. Investments in associates are accounted for under the equity method as per Ind - AS 28 - "Investments in Associates and Joint Ventures".

u) Recent Accounting pronouncements:

There are no new accounting pronouncements that are applicable from 01 April 2020.

Note 3 - Key Accounting Estimates and Judgements:

The preparation of Consolidated Financial Statements in accordance with Ind - AS requires use of estimates and assumptions for some items, which might have an effect on their recognition and measurement in the Balance Sheet and Statement of Profit and Loss. The actual amounts realised may differ from these estimates. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the management becomes aware of changes in circumstances surrounding the estimates. Differences between the actual results and estimates are recognised in the period in which the results are known / materialised and, if material, their effects are disclosed in the notes to the Financial Statements.

This note provides an overview of the areas that involved a higher degree of judgement or complexity and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the financial statements.

Critical accounting estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below:

a) Income Taxes:

The Group's tax jurisdiction is India. Significant judgements are involved in estimating budgeted profits for the purpose of paying advance tax, determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions.

b) Property, Plant and Equipment and Investment Property:

Property, Plant and Equipment and Investment Property represent a significant proportion of the asset base of the Group. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Group's assets are determined by the management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technical or commercial obsolescence arising from changes or improvements in production or from a change in market demand of the product or service output of the asset.

c) Defined Benefit Obligation:

The costs of providing other post-employment benefits are charged to the Statement of Profit and Loss in accordance with Ind AS 19 'Employee benefits' over the period during which benefit is derived from the employees' services. The costs are assessed on the basis of assumptions selected by the management. These assumptions include salary escalation rate, discount rates, expected rate of return on assets and mortality rates.

d) Fair value measurement of Financial Instruments:

When the fair values of financial assets and financial liabilities recorded in the Balance Sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques, including the discounted cash flow model, which involve various judgements and assumptions.

e) Estimates of uncertainties relating to the global health pandemic from COVID-19:

The Group has considered the possible effects that may result from the pandemic relating to COVID -19 on the carrying amounts of receivables, investments etc. In developing the assumptions relating to the possible future uncertainties in the global economic conditions because of this pandemic, the Group, as at the date of approval of these financial statements has used internal and external sources of information including credit reports and economic forecasts. The Group has performed sensitivity analysis on the assumptions used and based on current estimates expects the carrying amount of these assets will be recovered. The impact of COVID-19 on the Group's financial statements may differ from that estimated as at the date of approval of these Consolidated financial statements.

Fair value hierarchy

Statement of Changes in Equity for the year ended 31 March 2020

- Level 1** Quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments and mutual funds that have quoted price. The fair value of all equity instruments which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing NAV.
- Level 2** Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices). The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.
- Level 3** Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs). If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities included in level 3

The following table presents fair value hierarchy of assets and liabilities measured at fair value on a recurring basis as of 31 March 2020:

(₹ in lakhs)

Financial instrument measured at amortised cost

The carrying amount of financial assets and financial liabilities measured at amortised cost in the financial statements are a reasonable approximation of their fair values since the company did not anticipate that the carrying amounts would be significantly different from the values that would eventually be received or settled.

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS

Note 35 - Financial Risk Management:

Financial Risk Factors:

The Group's financial liabilities comprises mainly of trade payables and other payables. The Group's financial assets comprise mainly of investments, cash and cash equivalents, other balances with banks, loans, trade receivables and other receivables

The Group's activities are exposed to Market risk, credit risk and liquidity risk. The Group has set up Risk Management Committee in order to minimize any adverse effects of the risk exposure on the financial performance of the Group.

The Board has been monitoring the risks that the Company is exposed to due to outbreak of COVID 19 closely. The Board has taken all necessary actions to mitigate the risks identified basis the information and situation present.

1. Market Risk:

Market risk comprises of three types of risk: Currency Risk, Interest rate Risk and Other Price Risk.

a. Foreign Currency Risk:

Foreign currency risk is the risk that the fair value of future cash flows of an exposure will fluctuate due to changes in foreign currency exchange rates. The carrying amounts of the Group's foreign currency denominated monetary items are as follows:
(₹ in lakhs)

Particulars	Liabilities		Assets	
	As at 31 March 2020	As at 31 March 2019	As at 31 March 2020	As at 31 March 2019
Currency				
USD	NIL	NIL	0.81	5.03
EURO	NIL	NIL	2.72	NIL
OMR	NIL	NIL	0.08	NIL

The Group has not entered into any forward contract during the year ended 31 March 2020 and 31 March 2019. The Group has not entered into any forward instrument for trades or speculation purpose.

Interest Rate Risk:

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Since the Group has NIL interest bearing borrowings, the exposure to risk of changes in market interest rate is NIL. The Group has not used any interest rate derivatives

c. Other Price Risk:

Other Price risk is the risk that fair value of a financial instrument will fluctuate due to changes in market traded price. Other price risk arises from both financial assets such as investments in equity instruments and bonds.

The Group invests in units of mutual funds including Fixed Maturity Plans, various debt Funds and Equity funds, and hence exposed to Other Price risk. Group's Treasury dept. manages investments portfolio diversification in order to minimize risk and ongoing monitoring of market prices of investments.

2. Credit Risk:

Credit risk refers to the risk of default on its obligation by the counterparty resulting in financial loss. Trade receivables are typically unsecured and are derived from customers from four operations Nesco IT Park lease, Bombay Exhibition Centre (BEC) revenue, sale of Industrial Capital Goods and Nesco Foods

The maximum exposure to credit risk on account of trade receivables, at the reporting date is ₹1,603.13 lakhs and ₹ 1,804.23 lakhs as on 31 March 2020 and 31 March 2019 respectively.

The Group minimizes credit risk relating to IT Park lease, BEC and Hospitality business as follows:

- The Group obtains security deposits from IT Park lessees and entitled to terminate lease agreement in case lessee makes defaults in payment of lease for a period of two consecutive months.
- BEC customers are required to pay advance and place refundable security deposit with the Group.
- Hospitality customers are required to pay advances to the Company.

Whereas, in case of trade receivables from Industrial Capital Goods division for sale of machineries, credit risk is managed through credit approvals, establishing credit limits and continuously monitored by creditworthiness of customers to whom, credit terms are granted in normal course of business.

The Group takes into account available credit risk factors as Group's historical experience for customers, customers' standing for credit defaults in market.

The allowance for lifetime expected credit loss on customer balances as on 31 March 2020 and 31 March 2019 was ₹ 183.86 lakhs and ₹ 173.55 lakhs respectively.

Particulars	Year ended 31 March 2020	Year ended 31 March 2019
Balance at the beginning	173.55	18.16
Loss allowance measured at lifetime expected credit losses	10.31	155.39
Balance at the end	183.86	173.55

Credit risk of financial assets other than Trade receivables:

- Investments in mutual fund schemes are marked to market on ongoing basis, which is major part of total Non-current and current investments.
- Long term loans and advances include deposits with local authorities, electricity Board, electricity companies etc.
- Cash and Cash equivalents are balances with Public and Private Banks.
- Other current assets include deposits with more than 12 months maturities with Public and Private Banks and Earnest Money deposits with Govt. customer.

Credit risk arising from investment in mutual funds, financial instruments and other balances with banks is limited and there is no collateral held against these because the counterparties are banks and recognized financial institutions with high credit ratings assigned by the international credit rating agencies.

3. Liquidity Risk:

The Group's principal sources of liquidity are cash and cash equivalents, Balances and cash flows that are generated from business. The Group does not have any borrowings. The Group believes that their working capital is sufficient to meet its current requirements. Accordingly, no liquidity risk is perceived.

The Group manages the liquidity risk by maintaining adequate cash and cash equivalent ₹ 955.70 lakhs and ₹ 511.27 lakhs as on 31 March 2020 and 31 March 2019 respectively.

4. Risk due to Outbreak of COVID 19 Pandemic

The outbreak of COVID 19 pandemic globally and in India has severely impacted businesses and economies. There has been disruption to regular business operations due to the measures taken to curb the impact of the pandemic. The Company's plants and offices were shut post announcement of nationwide lockdown. Most of the operations have resumed post lifting of lockdown. The Company has considered external and internal information in assessing the impact of COVID 19 on various elements of its financial statements, including recoverability of its assets as at the Balance Sheet date

Capital Management

For the purpose of the Company's capital management, capital includes issued capital and all other equity reserves attributable to the equity shareholders of the Company. The primary objective of the Company when managing capital is to safeguard its ability to continue as a going concern and to maintain an optimal capital structure so as to maximize shareholder value.

As at 31 March 2020, the Company has only one class of shares referred to as Equity Shares and has nil debt. Consequent to such capital structure, there are no externally imposed capital requirements. In order to maintain or achieve an optimal capital structure, the Company allocates its capital for distribution as dividend or re-investment into business based on its long term financial plans.
